**INF LP BACK PANEL KIT**  
ITEM # 291414 (BLACK)  
ITEM # 291415 (SILVER)

## Non-Telescoping Fixture Back Panel Installation

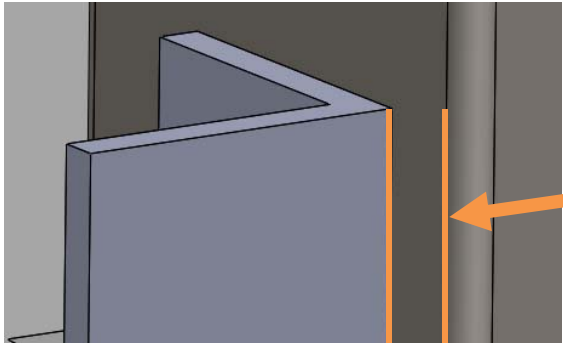

Place one of the channels onto the lower stability panel. Wide part of channel should be facing to the front of the fixture.

# Non-Telescoping Fixture Back Panel Installation

Remove backing from tape on support brackets. Secure brackets to uprights just below threaded stud locations. Leave 1/8" gap between bracket and back of upright.

Place 1/8" in from back of upright to provide space for end panel

## Non-Telescoping Fixture Back Panel Installation

Insert back panel into wide channel on lower stability panel and attach to tape on brackets. Repeat all steps with all remaining back panels.
